

COMMERCIAL INVOICE

Invoice Number:	INV-2024-002	Issuer:	Vertex Innovations Group LLC
Issue Date:	February 15, 2024	Address:	100 Innovation Way, Suite 400
Due Date:	March 15, 2024	City/State:	San Francisco, CA 94105
Client Name:	Global Tech Solutions Inc.	Client Billing:	finance@globaltech.com

This official commercial invoice details the technical milestones, cloud provisioning, and engineering integrations executed during the February 2024 fiscal cycle. All deliverables have been successfully deployed and verified against the master service agreement. Please process the balance outlined below before the specified due date via the designated wire transfer protocols.

Item Description / Details	Qty	Unit Price	Total
Cloud Infrastructure Tier-1 Deployment Active February environment management and automated scaling matrix orchestration.	3	\$17,500.00	\$52,500.00
Data Warehouse Migration Services Final pipelines migration, target cluster staging, and verification checks.	1	\$38,000.00	\$38,000.00
Enterprise Cybersecurity Architecture Penetration surface analytics, IAM configurations, and baseline shielding hours.	120	\$250.00	\$30,000.00
Legacy Monolith Refactoring Phase II Decoupling microservices frameworks and refactoring routing logic layers.	160	\$220.00	\$35,200.00
Predictive Data Pipeline Orchestration Deployment of streaming Kafka nodes and automated pipeline scripts.	2	\$14,000.00	\$28,000.00
API Gateway Integration Framework Unified security wrapper layer across microservices components.	1	\$19,500.00	\$19,500.00

DevOps CI/CD Automated Pipelines Configuration of continuous delivery runbooks and test scripts.	80	\$185.00	\$14,800.00
UI/UX Design Optimization Sprint Interactive component updates and front-end fidelity layout overhauls.	90	\$160.00	\$14,400.00
Distributed Ledger Audit Layer Cryptographic tracking frameworks implementation for data change logs.	1	\$22,000.00	\$22,000.00
Full-Text Search Engine Indexing Elasticsearch clustering configurations and latency tune-ups.	45	\$200.00	\$9,000.00
Mobile Client Push Infrastructure Multi-platform push alerts module configuration and metrics telemetry.	1	\$12,500.00	\$12,500.00
Data Compliance Guardrails Setup Automated GDPR / SOC2 checking rules applied directly inside tables.	1	\$16,000.00	\$16,000.00
High-Availability Load Balancing Multi-region fallback configuration with active traffic monitors.	2	\$9,500.00	\$19,000.00
Business Intelligence Reporting Kit Interactive execution boards and real-time operations dashboards.	1	\$18,000.00	\$18,000.00
Chaos Engineering System Stressing Simulated automated failures to test resilience thresholds.	30	\$240.00	\$7,200.00
ML Model Inference Hyper-Tuning GPU processing nodes alignment and optimization of baseline latency.	40	\$280.00	\$11,200.00
Technical Training Workshop Series Knowledge transfer modules and runbooks handover to internal staff.	4	\$3,500.00	\$14,000.00
Subtotal			\$361,300.00
VAT / Corporate Tax (8%)			\$28,904.00

Grand Total Due	\$390,204.00
